CONGRESS.

The Doings of the Senate and House of Representatives in Brief.

The Investigation of Deputy Marshal Lot Wright Still Progressing.

Railroad Matters---Items of Business Interests---The Records of Crime.

Congressional News.

WASHINGTON, D. C., January 5.—Mr. Hiscock moved to suspend rules and to pass a bill abolishing internal revenue tax on tobaccos, cigars, snuff, cigarettes and cheroots, special tax on dealers in tobacco and tax on liquors distilled wholly from fruit mills, demanded a second motion and was recorded, 86 to 75.

Mr. Hiscock said the bill would reduce revenues of the government yearly $50,000,000, and he believed it would be a good thing to have the revenues reduced that amount.

Mr. O'Neille, of Missouri, said the purposes of the bill was to protect certain peculiar industries which were robbing the people. It meant to protect the salt interest of the gentleman from New York (Hiscock). It meant to protect the sugar of Louisiana. This congress would do nothing on the tariff question. It would at present avoid the stupendous blunder of passing this bill.

After a lengthy debate a motion to suspend the rules and pass the bill was lost. Yeas, 77; nays, 128.

Mr. Keifer moved to suspend the rules and take from the speaker's table the Mexican pension bill and concur in all the senate amendments thereto.

Mr. Hammond demanded a second reading and the house agreed—98 to 88.

Mr. Hammond, in opposition to the vote, said the Mexican pension bill, which passed the house, was heartily approved. The senate had engrafted upon it pensions to all federal soldiers of the late war. He did not know how much this would take from the treasury, but it would entail upon the people an immense burden of taxation.

Mr. Bayne argued that now was presented a last opportunity to pass the bill, and Mr. Cutcheon supported the bill as a matter of justice to the Mexican veterans and the soldiers of the late war.

Messrs. Keifer and J. D. Taylor, of Ohio, characterized as extravagant the estimates of the amount to be taken out of the treasury by the bill and maintained that it would not require an appropriation of more than $17,000,000 annually to meet its provisions.

Mr. Warner, of Ohio, held that the principle of the bill, if allowed out, would result in the expenditure of not less than $250,000,000. The principle of granting service pensions was dangerous.

A motion to suspend the rules and concur in the senate amendments was lost, yeas, 129; nays, 85; not the necessary two thirds of the affirmative.

Mr. Collins moved to suspend the rules, and adopt the bill to establish a uniform system of bankruptcy, continuing the special order for Thursday January 22d.

Mr. Willis demanded a second reading which was ordered—119 to 51.

Mr. Willis, of New York, said, this bill was a reproduction of the old law, which had been repealed. It was a bill which three years ago had been repudiated by the British parliament. He predicted if the house passed the bill, and consideration in this case meant passage, that these five thousand officials would have hardly begun their infamous work before a cry would come from all quarters of the country, demanding from the American congress a prompt repeal of the law. The law would be an open door to fraud. It would be a temptation to wild speculation, which was ruin to the country.

Mr. Collins said if the opponents of the bill were fair minded enough to give it a hearing he would undertake to give them a convincing reason why it should become a law.

A motion to suspend the rules and fix a day for the consideration of the bankruptcy bill was lost—yeas, 135; nays, 75; not the necessary two-thirds in the affirmative.

Mr. King introduced a bill appropriating $7,000,000 for the improvement of the Mississippi river, in accordance with the plans and estimates of the Mississippi river commission. Referred.

Adjourned.

WASHINGTON, Jan. 6.—The senate investigation of Indian land cases was begun by the senate committee on Indian affairs to-day. John H. Scott, agent for several tribes in Indian Territory called all tribes under his charge. He said he had leased a portion of their land. The Ponchas leased 50,000 acres, or one half their possessions, for $17,000 per annum. The land was not sublet but was occupied by Sherburne, the lessee, for grazing purposes. The present policy of leasing witness considered the best. He was asked if the price paid by Sherburne was a fair one but was not prepared to express an opinion on this point. The Nez Perces leased a portion of their reservation for $2,000 a year; Pawnees leased 127,000 acres at three cents per acre for a term of ten years.

The witness thought the lands might now be leased for a higher price.

John O. Nifts, agent of five civilized tribes, testified that the Cherokee nation is two hundred miles long and fifty-six miles wide, and was leased to an association for $100,000 a year, and the land could now rent for $50,000 more. Recess till evening.

HOUSE.

The question of exporting the national exhibits at New Orleans to London, was considered.

The committee on Indian affairs reported favorably on extending the time of the St. Louis and San Francisco railroad through the Indian territory for two years longer.

Ellers, of committee on appropistions, reported a joint resolution appropriating $50,000 for the support of destitute Indians in Montana. Passed.

The house then went into a committee of the whole, with Rogers, of Arkansas, in the chair, on the pension appropriation bill.

Investigating Lot M. Wright.

CINCINNATI, Ohio, January 5.—Mr. Follett spent some time in examining as to the number of days allowed to deputies.

Mr. Wright said two days were allowed, because the men spent the time coming to be qualified and receiving instructions, and served late into the night and returned the day after the election to report, etc. His first bill was incorrect because his book deceived him as to the number of deputies and the time of appointment. Some were sworn in at noon of the day on which the election occurred. The distinction which he made between general and special deputies was as to the rate of pay. He supposed he could appoint any citizen of the United States a general deputy, and appointed one Adams, of Colorado, a deputy marshal. He was badly beaten up at the sixth ward polls by a deputy sheriff from Kentucky. Witness visited wards eight, nineteen and two others on election day, and found a bad state of affairs. He was sorry he had not appointed more marshalls.

His examination was suspended to introduce A. J. Thorp, whom Mr. Wright had referred to as the Democrat who applied to him for an appointment as deputy marshal. Thorpe said he did apply and offered to serve for nothing. He was introduced by Commissioner Probasco, who refused to recommend him. Marshal Wright told him if he would bring a recommendation from George H. Pendleton he would appoint him. He did not bring the recommendation. On cross-examination Thorpe said he knew Probasco from his connection with the United States court, where he (Thorpe) was tried and convicted.

Wright's testimony was then resumed. He did not know that the general marshals were paid at all. He paid none. He appointed the special deputy marshals upon the written application of two citizens of the Twenty-first ward. This is the Second congressional district. He thought he had authority, upon such application, to appoint for the whole city, no matter how many congressional districts it contained. The appointment of general deputies was on the request of no one in particular, except as stated in regard to Covington repeaters.

Being asked if he did not know that one of his deputies, E. J. Snyder, was a notorious "bunko" man, Wright replied that he did not know it, but that Snyder was recommended to him by Postmaster Whitfield, of Cincinnati, as a reliable gentleman. Colonel Colin Ford delivered some of the pistols to deputies, but he did not know Powell Clayton, of Arkansas, helped deliver pistols. He did not hear Clayton say to deputies, "Now you have revolvers; go out and use them." He invited Clayton to come to his office on election day, because the latter had experience in handling deputy marshals. He gave no order to deputies "to use their pistols." Their instructions were to be discreet and not to use them unless necessary for self defense and that they would be held responsible.

AFTERNOON SESSION.

The committee read the names, one by one, of the deputies appointed and asked Mr. Wright if he knew the men, where they lived and their business. Witness in most cases could not recollect persons asked about and did not know whether they were thieves and ex-convicts or not. Had never heard of any of them preventing a legal vote.

Wright said that men may have been in the penitentiary and yet be good men for deputy marshals. He knew his men were not strictly pious but held that it required brave men to contend with the dangerous element in the city at that time. He admitted to having appointed three deputies to serve in Reading, a city of less than 20,000 inhabitants, and which had not asked for them. Denied consultation with members of republican committee except in a casual way.

Cut His Throat.

AUGUSTA, Ga., January 5.—John C. Francis suicided by cutting his throat with a razor. He was a great sufferer from neuralgia and took morphine freely to deaden the pain. It is supposed he has been temporarily insane. After cutting his throat, he said the pain had driven him to desperation and he could bear it no longer. Francis was a well-known and respected citizen.

CLEVELAND

Sends in His Resignation and his Successor Formally Notified,

Who Heartily Eulogizes the President-Elect's Record for the Past Two Years.

Visitors Crowd the Executive Chamber to Say Farewell to Mr. Cleveland.

New York's Governor Resigns.

ALBANY, Jan. 6.—Governor Cleveland sent the following to the legislature shortly after noon:

ALBANY EXECUTIVE CHAMBER, January 6, 1885.

To the Legislature:

I hereby resign the office of Governor now of New York.

GROVER CLEVELAND.

The committee appointed to notify Lieut. Governor Hill governor, in view of Cleveland's resignation, informed him that the legislature is ready for business.

Adjourned till Tuesday, January 11.

A Hearty Good Bye.

ALBANY, Jan. 6.—Large numbers of people visited the executive chamber to bid farewell to Gov. Cleveland. The governor was in a genial and communicative mood and talked freely to the senators and joked and laughed all afternoon. There was a constant succession of visitors to the executive chamber.

What the New Governor Says.

ALBANY, Jan. 6.—Governor Hill, in his message to the legislature, says it may be safely asserted that the administration of Governor Cleveland for the two years past has more than met the just expectations of the people and made its lasting impression on the annals of the state. It has been brilliant in its sterling integrity, safe in its true conservatism, bold in its efforts for reform, faithful in its adherence to pledges and vigilant in its opposition to corruption. Its straight forward and business-like conduct, united with unquestioned honesty of purpose, has won for it and for himself the warm approval of his political friends, the sincere respect of his opponents and unswerving and unselfish support of independent citizens.

The Speaker Elected.

ALBANY, Jan. 6.—George E. Erwin was elected speaker of the assembly and a committee appointed to notify Governor Cleveland. The legislature has been organized.

Cost of Collecting Revenues.

WASHINGTON, Jan. 5.—The estimated cost of collecting revenue in all ports of the country for the fiscal year is, for salaries, $5,295,130; miscellaneous, $460,623. The employees number 4,147.

Will Not Reduce the Rates.

TOPEKA, Jan. 6.—Representatives of the traffic department of all Kansas railroads met here yesterday with the members of the state board of railroad commissioners, for conference in regard to freight rates in the wheat traffic. The managers presented a long answer to the request for reduction, stating the present rates were established by the state commissioners during last summer and were conceded to be fair and just to all parts of the state. Statistics were offered showing the prosperous condition of Kansas wheat growers and the unprofitable condition of the smaller railroads operating in the state. In the judgment of the traffic managers any reduction at this time would not be of any special advantage to Kansas farmers. The commissioners have not signified what further action they will take.

France and Egyptian Matters.

PARIS, Jan. 6.—It is learned from high official authority that France has not submitted to the powers any counter proposals concerning Egyptian negotiations. France has neither made overtures to any power nor received such from any looking to the summoning of a new Egyptian conference.

The Governors Want to Help.

WASHINGTON, Jan. 6.—The *Star* says the governors of twenty states have written to express their desire to co-operate in making the American exhibition to be held in London, in 1886, a faithful and thorough exposition of arts, manufactures and products of the United States. J. Gelneir Speed, the agent here, has received very general assurances from public men of their hearty support.

New York Speakership.

ALBANY, January 5.—The Evening Journal says, Erwin has the best prospects of election to the speakership to-night. He probably will be nominated by General Curtis, of St. Lawrence. The Erwin men claim fifty-five sure votes, and the Hubbell men thirty-three. The Erwin men claim that Hubbell will be withdrawn before the caucus is called to order.

Hubbell has just been withdrawn from the race for speaker, that leaves Erwin alone in the field and the winner. The contest went on all morning and afternoon in the rooms and corridor of the Delmonico House, and at one time Hubbell apparently was ahead, but the the friends of Erwin suddenly rallied and swept the field before them. The proceedings of the caucus this evening will necessarily be brief.

Slosson and Schaefer.

CHICAGO, January 5.—The first of a series of billiard matches between Schafer and Slosson was played to-night at the Central Music hall. The attendance was 1,500. The conditions were $500 a side and 800 points. The champions game lines were twenty by forty inches. It was the first public match ever played with lines of this length. Schaefer was the favorite. Odds of a hundred to eighty were bet on him. John Callahan, of Milwaukee, was chosen referee.

The first call, at the fifth inning, was, Schaefer, 129; Slosson, 27. It was not until the twelfth inning that Slosson did any important playing, and even then, he neglected half a dozen chances to work the rail. He failed at 62 on a hard draw shot. At the end of the nineteenth inning the score stood, Schaeffer, 513; Slosson, 188, with Schaeffer playing a good game of open style, and Slosson doing almost nothing.

Slosson in the fortieth made his best run, 97, by good and careful plays. The score then stood, Schaeffer, 668; Slosson, 464. Schaeffer rallied and ran forty-two in the forty-fifth, making his total 742 against Slossons 503. In the next inning Slosson got the balls together and made a very plucky run of 572. Schaffer followed with thirty-five, leaving himself within fifteen of the game. He ran it out easily in the forty-eighth inning at 11:40 p. m. Slosson's total being 589, and Schaffer's average was 16½; Slosson's was 12 35-47.

Suit Brought—Arrested for Forgery.

CINCINNATI, January 5.—J. W. Preston and others brought suit in the United States court for an order of sale of the Cincinnati, Columbus & Hocking Valley railroad (narrow gauge) upon a judgment for $104,000 previously rendered.

C. F. Henderson, representing himself as travelling for Gatts & Co., of Lowell, Mass., was bound over to the United States grand jury to-day by Commissioner Probasco, to answer a charge of presenting raised postal notes. He was arrested at Piqua, O., and identified by two or three postmasters as the man who received payment on raised postal notes. Henderson denys he was at the postoffices where the money was presented.

The Pennsylvania Speakership.

HARRISBURG, Pa., January 5.—The Republican senatorial caucus this evening selected Senator Murlin, of Lancaster, for speaker pro tem. The house caucus selected John L. Graham, of Allegheny, for speaker, and Geo. Pearson, of Mercer, for chief clerk. Both caucuses appointed commissions to nominate other officers. Democratic members of the house nominated the present officers. Democratic senators did not hold a caucus.

Resuming Work.

PITTSBURG, January 5.—Among the firms resuming to-day were the following: Westinghouse machine company 500 men, Zug & Co., 200 men; Cambria iron works, of Johnstown, 5,000 men; Long & Co., 300 men; National rolling mill, McKeesport, 500 men; Oliver Bro.'s & Phillips, Tenth and Fifteenth street, south side mills, 600 men, and Schoenberger mill, 300 men.

No Interest Taken.

PITTSBURG, January 5.—Charles Loether, president of the south side socialistic society, stated to-day that there were no armed anarchists here. Six years ago there was an armed company in Allegheny City, but it was disbanded because of a lack of interest.

Don't Pay.

NEW YORK, January 5.—Mayor Low, in his annual message, informed the board of aldermen that the Brooklyn bridge does not pay. He says it must earn $225,000 per year in order to provide the sinking fund required by law for the bonds issued by the two cities for its construction.

A Train Disaster.

SAN SUAN, Cal., Jan. 6.—Friday evening last the train from the south left the track. Seven were killed and sixteen wounded. The victims were well known people. Three cars were completely destroyed.

The indications for the lower lake region as reported by the weather bureau at Washington to THE SENTINEL are as follows: Warmer, cloudy and rainy weather followed in west portions by slight fall of temperature, northwesterly winds, decided fall in barometer in eastern portion, falling followed by rising barometer in western portion.

He also dismissed the intervening petition and bill of the Chicago Astronomical society, seeking to set aside its mortgage. In the observatory of the college is a great telescope of the astronomical society. Under the dedication of land to the college by the late Stephen A. Douuglass, the claim was urged that a mortgage could not be made lien against this property.

The Rates are Lower.

DUBUQUE, Iowa, Jan. 6.—The Illinois Central railroad announced yesterday that hereafter rates on grain from Dubuque to Chicago will be reduced from one to three cents the hundred weight. The rate on oats from Dubuque to New Orleans has been reduced to thirty-three cents, and from points between Fort Dodge and Lemar to New Orleans forty-five cents with the privilege of stopping here to be sacked free.

The World's Exposition.

NEW ORLEANS, Jan. 6.—Director Burke stated to-day that 7,000 men have been at work at the grounds and buildings during the past month, and what amounts were yet due the laborers would soon be paid. In case of running short of funds, the management would not apply to congress for another appropriation, but would ask their own people for an increased subscription.

Bad for Logan, if True.

CHICAGO, Jan. 6.—The *Daily News* prints a Springfield, Ill., special, which intimates that Senator Ruger, claimed as a republican, will act with the democrats, and that he aims at the presidency of the senate. The statement is also made that General Logan has been asked to go to Springfield and that he will reach there next Thursday.

Foul Play Suspected.

TILTSONBURG, Ont., Jan. 6.—Louis Stillwell, a farmer living near this place, was found dead in the woods shot through the head. Foul play is suspected and an investigation is now being held.

It Will be Settled.

Happiness for 2,000.

CHICAGO, Jan. 6.—The president of the north Chicago rolling mill company states that the mills in this city will resume operations in about three weeks. The mills employ about 2,000 men.

Not Bad After All.

PHILADELPHIA, Jan. 6.—The old firm of Crorkey & Co., lumber merchants, which failed yesterday for $450, will pay all creditors in full. It is not thought that any other firms will be involved.

They Were "Short."

NEW YORK, Jan. 6.—Hulchisser & Beakmar were just posted at the produce exchange as unable to meet their obligations. They are said to be short of wheat and oats.

Railroad Receiver Appointed.

NEW YORK, Jan. 6.—Judge Baxter, of the United States circuit court, has appointed Henry Fink receiver of the East Tennessee, Virginia and Georgia railroad.

Getting Better.

LONDON, Jan. 6.—Gladstone's health continues to improve.

Fell to Overflowing.

VINCENNES, Ind., January 5.—White river is overflowing its banks where they are unlevied. Hundreds of families are leaving the bottoms, compelled to move. The Wabash rose seven inches last night and six inches up to noon to-day. Thousands of saw logs were swept away over from the White river. Scores of families along the White river have been driven from their homes. The country below the city is greatly endangered.

OLDEN TIMES

The formula by which Mishler's Herb Bitters is compounded is over two hundred years old, and of German origin. The entire range of proprietary medicines cannot produce a preparation that enjoys so high a reputation in the community where it is made as

MISHLER'S HERB BITTERS.

It is the best remedy for Kidney and Liver Complaints, Dyspepsia, Cramps in the Stomach, Indigestion, Malaria, Periodical Complaints, etc. As a Blood Purifier, it has no equal. It tones the system, strengthening, invigorating and giving new life.

IT is estimated that in two years the United States will have a population of 60,000,000.

AT San Jose, California, there recently had been manufactured native silk in pieces that is said to compare favorably with the Lyons product.

IN 1853—only thirty-two years ago—the world's entire product of beet sugar was placed at 153,000 tons. In 1883 it had increased to 2,225,000 tons.

The term of Edwin P. Hammond, as judge of the supreme court, expired Saturday, and he is succeeded by Judge Joseph A. S. Mitchell, of Goshen. Judge Hammond will return to Rensselaer and resume the practice of law. He has been on the supreme bench about eighteen months.

How MUCH happier we would all be if we only could imitate Gladstone's example, in this one thing at least. He said recently: "I never allow business of any kind to enter my chamber door. In all my political life I have never been kept awake five minutes by any debate in parliament."

THE happiest policemen in the world are thought to be in Mexico. There are never any fires, everybody goes to bed early, and ladies do their shopping in close carriages. A revolution is the chief necessity for a policeman, and to prevent a revolution a policeman is stationed at every street corner.

IT is said by a local paper that a market woman in Peoria, Ill., is trying to avoid paying an election bet on a technicality. She was to wheel a man around the public square, but declares there was nothing in the bond about wheeling his clothes, and declares that he will have to go without them or not at all.

IT is in this way the Carrollton (Mo.) *Journal* waxes indignant: "Look here! You wood subscribers. Do you think this office can get along without fire until Christmas? This has been a beautiful autumn, but a chilling blast might strike us next week, and we would be in a pretty fix if we relied on the promises of some men in regard to fire wood."

A COMPANY has been recently organized at Vincennes for the building of a railroad from Vincennes to Owensboro, Ky. The proposed road will run direct from Vincennes to Arthur Station, on the Air Line road, thence direct to Owensboro. It will run two miles south of Petersburg. The company is composed of the same parties who projected the building of a road from Vincennes to Jasper.

A CHURCH advertises free seats, good singing and a hearty welcome. Everything there is of an ennobling and elevating character. Yet certain editors object. A concert saloon advertises free lunch, singing of obscene songs and a hearty welcome as long as you have money to spend. Everything there is degrading. Yet there same editors never say a word. In other words religion must hide itself under a bushel and be at a discount; blatant wickedness is set as a shining light upon a hill top and is at a premium. There are hundreds of strangers in Fort Wayne every Sunday, and every church has a perfect right to use legitimate means to secure attendance. There is not a newspaper in Fort Wayne that will say advertising to secure a good end is not legitimate.

THE editor of the Corydon *Democrat* has fallen heir to $10,000.

THE decision of Justice Brown, of the supreme court, that wives are competent to enter into business partnerships with their husbands, if it be sustained by the court of appeals, will do much to enhance the interest and multiply the excitements of married life.

IT is said of Major Burke, the director-general of the New Orleans exposition, that two months ago he hadn't a white hair in his head. Now his hair is nearly white, and great anxiety is felt for his health. His nights are passed on the grounds, as he is not willing to lose the time required in going from his house to the exhibition.

FIRE was too much for the insurance companies last year. The total losses by fire for the year in the United States and Canada exceeded $106,000,000, which, added to the expenses of the companies, exceeded the total amount of premiums received. Only a few of the more fortunate companies declared dividends on last year's business.

AN enterprising pill-manufacturer of London, has forwarded to Lord Wolseley, who is now marching to the relief of Gen. Gordon, 1,000 copies of a handbill extolling the virtues of his pills, and also his check for £150 as a prize to the first soldier who shall paste one of the hand-bills on the palace door of General Gordon at Kartoum. He also stipulates that the soldier's name will be published in every newspaper in England.

NEARLY all educators are convinced that the imagination is not sufficiently cultivated in modern school methods. School children know but very few words, have but few ideas, and express themselves with little fluency or grace. To remedy this defect the Life and Adventures of Robinson Crusoe has just been issued as a school reader by a Boston firm. Notwithstanding its age, this wonderful story holds its own in the hearts of children, and as a school reader will doubtless be a success.

For scrofula, syphilitic disorders, thin and watery blood, sluggish liver (indicated by poor digestion), weak kidneys, (indicated by urinary sediments), diseased mucous membrane, (indicated by both nasal and urinary catarrh, inflamed eyelids, etc.), use Dr. Guysott's Yellow Dock and Sarsaparilla. It gradually rebuilds a broken-down constitution and restores robust health and strength to every part. No other remedy equals it.

THE senate of New Jersey is republican by one majority, and this one elected by thirteen majority.

Every day adds to the great amount of evidence as to the curative powers of Hood's Sarsaparilla. Letters are continually being received from all sections of the country, telling of benefits derived from this great medicine. It is unequaled for general debility, and as a blood purifier, expelling every trace of scrofula or other impurity. Now is the time to take it. Made by C. I. Hood & Co., Lowell, Mass. Sold by all druggists.

HON. HUGH O'BRIEN, democratic candidate for mayor of Boston, is a printer by trade.

The blood is the life. When the blood is impure or diseased, the general health is bound to suffer. The great merit of Mishler's Herb Bitters is therefore apparent, for it absolutely purifies the blood, qualizes the circulation, regulates its supply, improves its quality, furnishes vital energy, conquers disease, perfects digestion, improves the appetite, cleanses the liver and kidneys, acts as a mild stomachic, and imparts vitality and elasticity to every organ of the body.

"How do you know when a cyclone is coming?" asked a stranger of a western man. "Oh, we get wind of them," was the reply.

WHITE SEAL BURNING OIL

The New York board of health estimates that 50,000 lives have been destroyed by the explosive qualities of petroleum. If every household would adopt the White Seal oil for family use, none of these unfortunate accidents would occur.

WHITE SEAL BURNING OIL has none of the defects usually found in common oils. It cannot be exploded, does not char the wick, will not smoke, emits no offensive odor, and prevents the breaking of chimneys.

WHITE SEAL BURNING OIL is a rich oil for illuminating purposes. It is as light in color as pure water. It gives a strong steady light, and burns much longer than common oils.

If this oil is not sold in your vicinity, send your order direct to us for a barrel or a case containing two five gallon cans.

SCROFULA.

Vanderbilt's Money Couldn't Buy It.

The Acworth News and Farmer of this week says: Mrs. Elizabeth Baker, living within 3 miles of Acworth, remarked that Vanderbilt's fortune could not buy from her what six bottles of Swift's Specific has done for her. Her statement is as follows: For thirty years I have suffered almost death from that horrible disease, scrofula. For years I was unable to do anything in keeping up my domestic affairs. Last October I was induced to try Swift's Specific, and used two bottles, and was so much benefited by it that I purchased four more from Messrs. Northcut & Johnson, which has almost entirely relieved me. I feel like a new person, and can do all my own housework. Before I took the S. S. S. my life was a burden, as my entire person was covered with sores, and in the miserable condition I did not care to live. I had tried every known remedy, and my case was generally regarded as incurable. I had been treated by the best physicians to no avail. I most heartily recommend Swift's Specific to the afflicted.

Messrs. Northcut & Johnson, merchants at Acworth, say: We know Mrs. E. Baker personally; we are familiar with her case. She is highly esteemed in this community.

Rheumatism Twenty Years.

I have been a sufferer from rheumatism for twenty years, at times with almost intolerable pain. I had the best medical treatment, and took all sorts of remedies, but without relief. Being reduced almost to a skeleton, and not being able to walk a step with crutches, I was induced to try Swift's Specific, and it acted like a charm, and I am to-day entirely relieved. Have thrown away my crutches, and am in excellent health. I believe Swift's Specific will cure the worst cases of rheumatism.

Communication.

WETUMPKA, ALA., Sept. 28, '84.—About six years ago I became afflicted with a very disagreeable skin disease, with large, dry sores and many crusted pimples on my face, hands and shoulders. The sore on my shoulder cut out a hole nearly an inch deep, and the cancerous appearance of one of the sores near my eye alarmed me very much. I tried all kinds of treatment, but found nothing that seemed to affect the disease. I finally decided to try S. S. S. on advice of a physician, and in a short time the scabs dropped from the sores and left my skin smooth and well. I consider S. S. S. the greatest blood medicine made, and the only thing that will cure the disease with which I was afflicted. I think my trouble was the result of a terrible attack of malarial fever, contracted while farming in the Tallapoosa river swamp. I can be found at my office in the Court house at Wetumpka. You can refer to me.

The Phœnix and Fort Wayne Knights of Pythias lodges hold a public installation of officers to-night in their West Berry street hall. A banquet and ball will follow.

It is probable that the Temple will be crowded next Friday evening to witness the initial performance of "The Wishing Well," as the entertainment is for benevolent purposes.

The topics of the prayer service in the Congregational church this evening is: "Prayer for a greater degree of fellowship among Christian brethren." To-morrow evening: "Prayer for a better understanding of God's word."

The "Wishing Well" charity entertainment promises to be quite an event. Mrs. Fannie Withers Patterson has the little ones in excellent drill for the performance Friday night. The entertainment is for charity and of course will be patronized.

At the invitation of the managers a large number of the friends of Rob Carnahan and Willie Peltier gathered at the West End skating rink last night to participate in a farewell entertainment given in honor of the young students. It was a very pleasant event.

The society columns of the Sunday papers omitted two of the most pleasant parties given last week. On Tuesday evening a reception in honor of Dave Creighton at his parents' residence, and one Friday evening by Mr. and Mrs. Gust Rabus at their residence on Brackenridge street.

On January 1st, the leading railroads ceased issuing 1,000 mile tickets to commercial travelers, and will instead issue tickets upon which the coupons are to be cut off for over excess of distance traveled and presented by the house for rebate. The traveling men are up in arms at what they think a blow at their rights, and will take measures to persuade the railroads to return to the former system.

George Douglass and Christ Hitzeman returned Saturday from the Danville hospital, after spending one week. They are all right again and resumed work yesterday morning. The failure of Brooks & Dickson is believed to be but the forerunner of the collapse of several other managers of note. The theatrical business is phenomenally bad all over the country.

This is the feast of the Epiphany, and the Catholic church observes it with great solemnity. It is in commemoration of the manifestation of Christ to the Gentiles. Last night Sheriff Nelson finished his inventory of the stock of clothing and household goods of Julia M. Nirdlinger. The sheriff finds the whole to be worth about $16,000. This morning Moses Koch, of Cleveland, made demand for the stock of clothing as his by purchase and, after giving a $33,000 bond with himself and Mrs. Hannah Nirdlinger as surety, the sheriff gave Mr. Koch the keys to the store and he is now in possession. The suit to determine the validity of Mr. Koch's purchase will next come up.

TRAINMEN TUMBLE.

The Officers of the Pittsburg Road Squeeze Fifty Brakemen out of Place.

The Pittsburg, Fort Wayne and Chicago Railroad company continues its work of retrenchment and now the heads of fifty brakemen are to drop. The scheme is to double all freight trains run between Crestline and Chicago. The system is known to railroad men as a "double header." Two freight trains are coupled together and two locomotives pull them. This enables the company to dispense with a conductor and three brakemen for each train doubled. The conductors will not be discharged but given positions to brake, if they so desire it. Some of the conductors have been in the service four years and others less. It goes pretty hard with these men to get down and twist brakes again, but they will nearly all do it. It was intended to inaugurate the double headed system yesterday, but Superintendent Law gave a few more days grace before he cuts from the roll fifty trainmen who will have a hard time to find employment now.

Municipal Laws.

Mr. Henry Colerick, the brilliant city attorney, went to Indianapolis this afternoon to attend a meeting of the city officers of the state, who combine to secure favorable municipal legislation. Mr. Colerick will urge for this city a law enabling the council, by ordinance, to fix penalty on all contractors who, at the expiration of thirty days, do not receipt at the office of the city clerk for all estimates collected for public work. Contractors are in the habit of collecting money from poor people for sidewalk and sewer improvements, then neglecting to receipt for the money at the city clerk's office, where it stands as a lien against property until so cancelled.

Another law Mr. Colerick will urge is one empowering cities to collect all assessments for opening streets by way of the tax duplicate, instead of by precept as now.

Officers Installed.

The following persons were installed last night as officers of the Fort Wayne Lodge, No. 14, I. O. O. F., by District Deputy Grand Master William Myers:

N. G., Rine Cape; V. G., William Hamilton; recording secretary, D. L. Harding; permanent secretary, George Herr; treasurer, T. J. Rodabaugh; W., William Bloudjot; C., C. H. Buttenbender; O. EMPHATIC GUARANTEES,

Which are Justified by an Extraordinary Public Experience.

TO THE PUBLIC—*Greeting:* As the conductors of the largest business of the kind in the world (and therefore having an extraordinary experience) we feel justified in making the following statements:

OUR THEORY PROVED.

FIRST.—We have held from the beginning that most of the common ailments are caused primarily by kidney and liver disorders, not primarily by bad blood; that bad blood is caused by temporary or chronic derangement of the kidneys and liver, and that by restoring these blood-purifying organs to health, we could cure most of the common ailments. Other practitioners, however, have held that extreme kidney and liver disorders are incurable. We have proved to the contrary in thousands of cases.

SAFEGUARDS AGAINST EPIDEMICS.

SECOND.—The kidneys and liver are the sewers of the system, and unless they are kept in perfect working order no amount of public sanitation can prevent epidemics raging among the people. The prudent man, *in the winter and spring*, will fortify the system against any such possibility. Dr. Koch, the celebrated German scientist and physician, says, for instance, that cholera will have but little effect among those who keep the digestive organs and the kidneys and liver in healthful operation. Warner's SAFE remedies are the best scientific curatives and preventives, and should be used now as a safeguard against any future scourge.

SCIENTIFIC SPECIFICS.

THIRD.—*We do not cure every known disease from one bottle*, for Warner's SAFE remedies number seven scientific specifics which have been put upon the market, only in obedience to strong public demand.

RECOGNIZED STANDARDS.

FOURTH.—Warner's SAFE remedies, spite of all opposition, have won the favor of the profession as well as the masses, and are recognized as the leading standard medical preparations.

STRONG GUARANTEES.

FIFTH.—After six years of unequaled experience, we can give these unqualified guarantees.

GUARANTEE I.—*Pure and Harmless.* That Warner's Safe Remedies are pure and harmless.

GUARANTEE II.—*Testimonials Genuine.* That the testimonials used by us, so far as we know, are bona fide, with a forfeit of $5,000 for proof to the contrary.

GUARANTEE III.—*Curative effects permanent.* That Warner's Safe Remedies are not *merely temporary but permanent*, in their curative effects and will sustain every claim, if used sufficiently and as directed.

PROOFS OF PERMANENCY.

SIXTH.—Special inquiry among hundreds of our oldest patients results in unequivocal testimony that the cures wrought six, five, four and three years ago, were permanent. And most of these patients were pronounced incurable when they began Warner's Safe Remedies.

Read a *few* of thousands of testimonials.

ELDER JAMES S. PRESCOTT, Box 252, Cleveland, Ohio, in 1878 was pronounced incurable of Bright's disease; in 1879 he began the use of Warner's Safe Cure, and in 1884 he reported: "Health never better; just past 80th year; am an enthusiast for Warner's Safe Cure."

R. H. MCMICHAEL, Emporia, Kansas, in 1880 had inflammation of the bowels and a monstrous abdominal tumor. He began using Warner's Safe Cure, 23 bottles of which, he said July 15th, 1884, "permanently cured me."

MRS. HELEN LUTKEN, West McHenry, Illinois, two years ago used Warner's Safe Cure and Safe Nervine for complete prostration. August, 1884, she said: "I have never enjoyed such good health."

S. A. GRIFFIN, East Liverpool, Ohio, in 1879 was attacked with vertigo and dyspepsia of the worst kind; he was cured by Warner's Safe Cure in 1882, and December 5th, 1884, he reported that he had had no trouble since he was permanently cured by Warner's Safe Cure.

REV. JAMES WAXHAM, LaPorte, Ind., in 1882, was cured of Bright's disease by Warner's Safe cure, and in 1884 he wrote: "My health is fully restored."

EDWIN FAY, of Davenport, Iowa, was cured of Bright's disease and kidney complaint in 1881, by Warner's Safe Cure. December 4, 1884, he wrote: "I am now free from kidney disorder."

SEVENTH.—It is a source of great gratification to us that Warner's Safe Remedies have been permanently beneficial to so many sufferers. *This permanency of power over disease gives them the most exalted ranks and in this particular they have no equal.*

When a remedy has proven itself to be a cure for consumption and a perfect lung restorer, it should be kept in every well regulated home.
